

Securing the top vertical markets: **Federal Government | Financial | Education | Enterprise | Healthcare | Public Safety | Telecommunications | Utilities (Oil & Gas)**

PARTNER LOGOS	DATA SECURITY SOLUTIONS						CAC Users	MSP Solution	COMPLIANCE				
									CJIS	HIPAA	NERC	PCI	TAA
	Biometrics	Logical Access	Multifactor Authentication	OTP, Single Sign-On	Proximity, RFID	Tokens							
	Authentication	Encryption	Middleware	Tokens	CMS	Smart Cards							
	Cloud	Data Center	Middleware	On-Premise	Physical Access	Wireless Door Locks							
	Antivirus Antimalware	Endpoint, Mobile Security	Attack Mitigation	Cloud and On-Premise	Virtual Environments	Data Centers, DDoS							
	Application Access Control	Breach Prevent & Containment	Cloud/Mobility Security	Enterprise App Security	Role-Based Access Control	Secure VPN & SD-WAN							
	Cloud Technologies	Email Encryption	Encrypted Data Delivery	Managed File Transfer	On-Premise	Secure Messaging							
	Client Server	Cloud, On-Premise	Data Encryption	Malware Prevention	Mobile Security	Endpoint							
	API	Biometrics	Identity Management	Live Finger Detection	Logical Access	OEM, Physical Access							
	On-Premise, Virtual Env.	MFA, Tokens, HSM, OTP	Secure USB, Proximity, RFID	Data Center, DB Encryption	Logical Access, Cloud	Smart Cards, Readers, CMS							
	Smart Card Management	HSM, Middleware	Logical Access, MFA	OTP, Proximity, RFID	Card Readers	Smart Cards							
	Identity Management	On-Premise	Physical Access	Remote Access	Card Readers	Smart Cards							
	Keyboards	Biometrics	Card Readers	Logical Access	Single Sign-On	Live Finger Detection							
	Biometrics	Identity Management	Logical Access	Single Sign-On	OEM	Physical Access							
	Load Balancing	Mobile Security	Network Security	Policies Management	Remote Access	Split Tunneling, VPN							
	Access Control	Data Encryption	MFA	Cloud, On-Premise	Tokenization	Context Aware Security							
	Access Control	Identity Management	Proximity Readers	RFID	Smart Card Readers	Smart Cards							
	Array Virtualization	Automatically Tuned Volumes	Disaster Recovery	Fibre-Channel	NAS, SAN, Tiering	SSD Caching							
	Access Control	Database Encryption	HSM	Identity Management	Load Balancing	Network Layer, Security							
	Migration	Data Backup	Application Configuration	Network Drive Hookup	Outlook Setup Accounts	Automated Process, PSTs							
	Application Security	Endpoint	Support	Testing	Assessment	Virtualization							
	CMS	Access Management	Identity Management	Mobile Security	PKI, Secure Email	Smart Cards
